# CANADA PENSION PLAN INVESTMENT BOARD Notes to the Financial Statements 

September 30, 2001
(Unaudited)

## ORGANIZATION

The Canada Pension Plan Investment Board (the "CPP Investment Board") was formed pursuant to the Canada Pension Plan Investment Board Act (the "Act"). The CPP Investment Board is responsible for managing amounts that are transferred to it under Section 111 of the Canada Pension Plan in the best interests of the beneficiaries and contributors under that Act. The amounts are to be invested with a view to achieving a maximum rate of return without undue risk of loss, having regard to the factors that may affect the funding of the Canada Pension Plan (the "CPP") and the ability of the CPP to meet its financial obligations.

The CPP Investment Board has a fiscal year end of March 31.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## Basis of presentation

These financial statements present the financial position and operations of the CPP Investment Board as a separate legal entity, and therefore include only a portion of the assets (as described in Note 2) and none of the pension liabilities of the CPP. These interim financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP") and the requirements of the Act and the accompanying regulations (the "Regulations") and follow the same accounting policies and methods of computation as the March 31, 2001 annual financial statements. The interim statements should be read in conjunction with the March 31, 2001 annual financial statements, as they do not include all information and notes required by GAAP for annual financial statements.

## Valuation of investments

Investments are recorded as of the trade date and are stated at fair value. Fair value is the amount of the consideration that would be agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act.

Market prices for publicly traded securities and unit values for pooled and mutual funds are used to represent fair value for the investments. Unit values reflect the quoted market prices of the underlying securities. Where quoted market prices are not available, fair value is determined in accordance with industry practice.

## 2. INVESTMENTS

The CPP Investment Board has established investment policies which set out the manner in which assets shall be invested. In determining the asset mix, the CPP Investment Board must take into consideration certain assets of the CPP which are held outside of the CPP Investment Board. As at September 30, 2001, these assets totalled approximately $\$ 35.9$ billion (at cost) and consisted primarily of government debt obligations. As a result, and in accordance with investment policies, $100 \%$ of the CPP Investment Board's investments are allocated to equities.

# CANADA PENSION PLAN INVESTMENT BOARD Notes to the Financial Statements 

September 30, 2001
(Unaudited)

## 2. INVESTMENTS (continued)

As at September 30, 2001, Canadian equity investments were primarily held in funds that substantially replicated the Toronto Stock Exchange 300 Composite Index. The remaining Canadian investments were private equities purchased during the current quarter.

The Non-Canadian equities were primarily held in funds that substantially replicate the Morgan Stanley Capital International EAFE Index and the Standard \& Poor's 500 Index. The remaining Non-Canadian investments were private equities purchased during the current quarter. Investments are not hedged against changes in foreign currency exchange rates.

## 3. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the current presentation.
